

**For the perfect finishing
touch this summer**

Do you want a garden that will make your neighbours jealous? Then the Bosch Isio and ASB 10.8 LI are the perfect tools for you. These tools are ideal for shaping your shrubs just the way you want them!

Do you want a garden that will make your neighbours jealous? Then the Bosch Isio and ASB 10.8 LI are the perfect tools for you. These tools are ideal for shaping your shrubs just the way you want them!

Isio

The Isio is one of the bestselling powered grass shears on the market. Its compact and lightweight design makes it easy to use ensuring a precise and accurate cut every time. Thanks to its versatile “Multi-Click System” you can easily change between grass shear and shrub shear, depending on the task at hand. There are also three additional attachments that can be purchased for the Isio – the sprayer, perfect for applying water-soluble pesticides or fertilisers onto plants, the spreader, ideal for quickly and effortlessly spreading seeds on your lawn and the telescopic handle, making it easier for trimming lawn edges or pruning taller shrubs and hedges.

ASB 10.8 LI

The ASB 10.8 LI is very similar to the Isio, however it is larger and more powerful, boasting with a 10.8 V battery. It comes with three different sized blades, 8 cm, 12 cm and 20 cm, making it ideal for cutting grass, shrubs and smaller hedges. Weighing only 900g this lightweight tool enables you to cut your shrubs to perfection with minimal hassle or muscle strain.

Both the Isio and ASB 10.8 LI benefit from the innovative ‘Anti-Blocking System’, which prevents virtually any chance of stalling. This means that if a thick branch cannot be cut through immediately, the innovative tools detect this and instantly adjust the running direction of the blades to continue cutting powerfully through the branch where other tools would stall.
